At the request of Mr. MURPHY, the name of the Senator from Ohio (Mr.

BROWN) was added as a cosponsor of S.J. Res. 32, a joint resolution to provide limitations on the transfer of certain United States munitions from the United States to Saudi Arabia.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. PETERS:

S. 3381. A bill to establish a program to accurately document vehicles that were significant in the history of the United States, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. PETERS. Mr. President, few American innovations have changed the modern world like the automobile. Cars and trucks are now woven into the very fabric of American life and culture. As a Senator from the State of Michigan, as well as a car and motorcycle enthusiast, I am especially proud of our State's leading role in the American auto industry.

The history of the automobile is really a history of American workers, innovators, and entrepreneurs, and it must be preserved. Right before me are two pictures of two really iconic vehicles, vehicles such as the 1964 Shelby Cobra at the top and a 1967 Chevrolet Camaro. These two cars helped spark a lifelong love of cars for millions of Americans. Fifty years later, these vehicles still inspire today's innovators and engineers as they work to develop cars and trucks of the future to be smarter, safer, more reliable, and more efficient than ever before. However, there is currently no dedicated Federal register to document historically significant automobiles, motorcycles, trucks, and commercial vehicles for future generations of Americans to appreciate and to enjoy.

Today I am introducing the National Historic Vehicle Register Act, which will establish a Federal register of historic vehicles and document and preserve records of these vehicles for our Nation's history. This legislation will ensure that the engineering drawings, photos, and stories of historically important vehicles will be available to inspire Americans and celebrate the accomplishments of the American auto industry.

The National Historic Vehicle Register Act would build on efforts of the Historic Vehicle Association to help document and preserve the legacy of some of our most historic vehicles. I recently had the opportunity to see two of the autos that have already been documented by the Historic Vehicle Association. I saw this vehicle right here at the bottom. This is President Taft's 1909 White Steam Car. It was the very first Presidential limousine. It is a beautiful and fascinating example of steam car technology from the early days of the automobile and could reach astonishing speeds up to 60 miles an hour. In addition to being a pleasant way to get around, President Taft's use of automobiles helped encourage other

Americans to adopt the new technology as their favorite mode of transportation.

I also had the honor to see the Jeep up on the top photo, which is President Reagan's 1962 Willys Jeep CJ-6. It was a Christmas gift from his wife Nancy. Standing next to the Jeep, I could not help but have a vivid picture of President Reagan driving it on his ranch in California, often accompanied by his dogs Lucky, Freebo, and Victory. The register would work to preserve these memories, with members of the historic vehicles community selecting automobiles and motorcycles to include in the register and establishing collaborative partnerships to carry out the register's activities.

Our Nation's rich automotive history belongs to the American people, and it is worthy of its own dedicated register. I look forward to working with my Senate colleagues, the historic vehicle community, and car enthusiasts across the country to preserve our motor heritage.

By Mr. DURBIN (for himself and Mr. WICKER):

S. 3390. A bill to ensure that significantly more students graduate college with the international knowledge and experience essential for success in today's global economy through the establishment of the Senator Paul Simon Study Abroad Program in the Department of Education; to the Committee on Health, Education, Labor, and Pensions.

Mr. DURBIN. Mr. President, throughout his life, the late Senator Paul Simon believed that for the United States to be a true world leader, our country and its citizens needed to strengthen our international understanding. In a 1995 floor speech, he posed the question "Can someone really be considered educated if, upon graduation as an engineer or physician or teacher or journalist or accountant or architect, he or she does not have the most minimal understanding of the rest of the world?" At the heart of this question was his aspiration for our country to become more internationally aware.

Following the horrific attacks of September 11, 2001—an event that is now 15 years in our past, Senator Simon shared his vision of a world in which peace and security is fostered through mutual understanding and global awareness. He believed the best way to develop this understanding and awareness was through fully submerse oneself in another culture. Senator Simon saw that the opportunity for this already existed on college campuses through study abroad programs. Study abroad helps students make a connection with another part of the world and begin to develop insight into the perspectives of other nations. By exposing young adults to study abroad, today's students will become more globally aware future leaders.
